

### Each capsule Contains:

Acetyl L-Carnitine	500 mg
Forskolin	100 mg
Dexpanthenol (B-5)	10 mg

\*Daily value not established

**OTHER INGREDIENTS:** Tricalcium Phosphate, Maltodextrin, Silicon Dioxide, Magnesium Stearate.

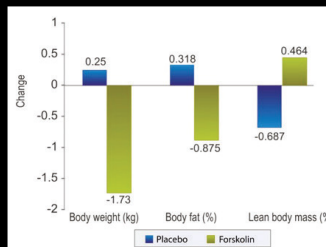

**SUGGESTED USE:** As a dietary supplement, take one (1) capsule twice a day or as directed by physician.

MitoLean is a synergistic supply of Forskolin and Acetyl L-Carnitine designed to mobilize fat from the adipose and increase thermogenic response.

### MOBILIZE FAT OUT OF ADIPOSE TISSUE

Forskolin activates fat burning enzymes called Hormone Sensitive Lipase, which frees fatty acids from stored fat so they can be used to create ATP. For this to be accomplished, the fatty acids must be transported into the mitochondria. Acetyl L-Carnitine facilitates the transport of fatty acids through the cell wall and into the mitochondria, the cell's energy furnace.

A 3-month, randomized, double-blind study results from 60 overweight volunteers found that consumption of Forskolin produced a significant reduction in body weight and body fat when compared to placebo group. No subjective or objective side effects in the active group were observed.

- ✓ **Pharmaceutical Grade and Therapeutically Dosed**
- ✓ **Stimulates Release of Fatty Acids from Adipose Tissues**
- ✓ **Assists in the Transport of Fats into the Mitochondria and the Production of Cellular Energy (ATP)**
